

# Exciting News!!!

At Three Peaks Primary Academy, we value and understand the importance of parent partnerships.

We already have strong links in place in, but we are constantly striving to develop these even further.

We have created an email address for you to email notes and photos of your child's learning and practise work from home.

Please note that this email address does not have the function for the teachers to email back and will not replace communication already in place such as texts and letters home.

We are very excited about this new development and are looking forward to receiving emails from you relating to your child's learning and achievements.
